From the first ring to the reminder.

On the first ring

Picks up

With your business name, in the caller's language.

In seconds

Checks your calendar

Offers only genuinely free slots.

After a clear yes

Books it

Reads the number back, then saves to Google Calendar.

Right away

Sends the WhatsApp

Confirmation now, reminders 24 h and 2 h before.

On the call

Speaks like your callers

English, Hindi or Hinglish, switching mid-sentence. Understands “kal shaam” and “parson”.

Handles noisy lines

Filters traffic and TV, asks the caller to speak up, never guesses a word.

Asks what's missing

Knows which details are still needed and asks for them one at a time.

Typed chat too

The same assistant works in a chat box for people who would rather type.

After the call

Calendar, no double bookings

Booked straight into Google Calendar, only after a clear yes.

Notes for your staff

A summary, a prep message and a suggested follow-up for every booking.

WhatsApp with Yes / No

Confirmation, then reminders. “No, cancel it” frees the slot.

Quality check

Every call is reviewed for missed questions.

For your team

Appointments tracker

Arrived, completed, no-show, notes, walk-ins and WhatsApp status.

Secure staff logins

Email, password and a one-time code. Owners manage settings.

Any industry

Call them patients, clients or buyers; choose the details to collect.

Customer history

Knows new from returning customers by their number.

Minutes reset every month; unused minutes do not carry over. Extra minutes ₹5 each. Calls reach the assistant through your existing number by call forwarding; the phone line and WhatsApp business messages are billed at cost.

Add-on: the content engine

Talk for three minutes about an offer, a tip or a story. AI writers and designers turn it into a week of posts: Instagram carousel, WhatsApp broadcast, Google Business post and a leaflet. Price on request.

Hear it answer your phone.

A 10-minute demo, set up with your own business name, services and hours.
